Who is my Novari ATC administrator?

Rachel Carmickle - 2022-06-28 - [Troubleshooting](#)

To find out who your Novari ATC administrator is, and if there are other support channels at your site:

- Click the Support link on the Novari ATC main page
- In the Support dialog, you should see the name and contact information of one or more support individuals at your site
- If no one is listed and you can't locate the individual through any other means, please contact Novari ATC Support, indicate which hospital you are at or which hospital your private office may be affiliated with
