

## Dashboard Quick Process Button Change

Leah Quenneville - 2023-05-10 - [eRequest](#)

To accommodate both the "Quick Process" and "Rad View" buttons, we have hidden unless the bucket is hovered.

Technologist To Do		- Filter by: Current Service Type -
Awaiting Tech Protocol	Requisitions awaiting tech protocol	1
Awaiting Tech Protocol - Inpatient	Inpatient Requisitions awaiting tech protocol	0
Todays appointments	Requisitions that have an appointment today	0

### Workflow

- Quick process buttons only show once you hover your mouse over a dashboard bucket, but still work as expected.
- Once clicked, rad view will open with context of the bucket that was selected.
- This will apply to all existing dashboard bucket quick process buttons.

### Feature Timeline

Test environment: Tuesday April 4th 2023

Prod environment: Wednesday April 12th 2023
