eRequest User Settings

Rachel Carmickle - 2024-05-16 - [Identity Management V2 \(NEW\)](#)

If the person is an eRequest user, then the eRequest User Settings are visible.

You and the eRequest user can set the Side-by-side requisition view setting (displays attachments next to the form in the "eRequest" tab), the Inbox auto-return setting (redirects back to the inbox after creating a requisition) and Fax templates.

Only you, as the administrator, can specify the Dashboard and Inboxes the user can see.

eRequest User Settings	
Side-by-side requisition view ?	<input type="checkbox"/> Off
Inbox auto-return ?	<input type="checkbox"/> Off
Fax templates	Manage templates
Dashboards	Administrator Dashboard, Central Intake Dashboard, Receiver Dashboard >
Inboxes	MIRM Central Intake >
