

When active requisitions come up when searching for a patient is there any way to see what modality the requisitions are for?

Kylah Kennedy - 2023-02-08 - [eRequest](#)

When active requisitions come up when searching for a patient is there any way to see what modality the requisitions are for?

Depending on your assigned role within eRequest you may or may not be able to see the modality of the other requisitions for the patient you searched.

When the search results appear the **Requisition Type** column will show the name of the modality of the other requisitions within eRequest for that patient:

Search Results

Reference Number	Patient Name	Health Number	Birth Date	Requested	Requisition Type	Status
E-DTRXTNH	Smith, Jordan	11111 (ON)	05/06/1985	04/01/2019 9:48:18 AM	Diabetes Management	Closed
